Surgical Forum Dedications

Past volumes of the Surgical Forum *have been dedicated to the following Fellows of the College:*

1966	Owen H. Wangensteen
1967	I. S. Ravdin
1968	Harris B. Shumacker, Jr.
1969	H. William Scott, Jr.
1970	Robert J. Kamish
1971	Alfred Blalock
1972	Lester R. Dragstedt
1973	Charles E. Huggins
1974	J. Englebert Dunphy
1975	Robert M. Zollinger
1976	Francis D. Moore
1977	William P. Longmire, Jr.
1978	Jonathan E. Rhoads
1979	Fraser N. Gurd
1980	Samuel R. Powers, Jr.
1981	William A. Altemeier
1982	John W. Kirklin
1983	James D. Hardy
1984	David C. Sabiston, Jr.
1985	Joseph E. Murray
1986	C. Rollins Hanlon

Surgical Forum XXXVIII

Chapter I—Metabolism and Nutrition

Metabolic Effects of Epinephrine During Chronic Hypercortisolemia 1
Richard Goldstein, MD, David Wasserman, PhD, Phillip E. Williams, BS, Brooks Lacy, BS, Keith Carr, PhD, Alan Cherrington, PhD, and Naji N. Abumrad, MD, FACS

Suppressibility of Endogenous Glucose Production by Bradykinin in Surgical Patients 4
Wolfgang H. Hartl, MD, Karl-Walter Jauch, MD Michael Georgieff, MD, Robert R. Wolfe, PhD, Bernulf Günther, MD, and Georg Heberer, MD, FACS(Hon)

Phosphorus and ATP Depletion in Blood and Tissue Following Whole Body Irradiation 8
Luca Bigatello, MD, Erwin F. Hirsch, MD, FACS, Eric McFarland, PhD, Leo Neuringer, PhD, Wayne W. LaMorte, MD, PhD, Richard Vezina, BS, Susan Corbett, BS, and C. Robert Valeri, MD

In Vitro Liver and Muscle Protein Metabolism in Noninfected and Infected Normal and Cirrhotic Rats 10
Silvano Bosari, MD, Wendy Love, MD, George H.A. Clowes, Jr., MD, FACS, Urmilla Khettry, MD, James D. Albright, BS, and Barbara C. George, MD

In Vitro Effects of TNF, IL-1α, and Other Monokines on Skeletal Muscle Amino Acid Uptake and Protein Degradation 13
Robert P. Hummel III, BA, Brad W. Warner, MD, Peter Pedersen, MD, Per-Olof Hasselgren, MD, PhD, J. Howard James, BS, Cora Ogle, PhD, and Josef E. Fischer, MD, FACS

Control of Human Adipocyte Lipolysis by Septic Plasma Mediators 15
Dickens St-Vil, MD, Michel Gagner, MD, and R. Armour Forse, MD, PhD, FRCS(C)

Reversal of the Toxic Effects of Cachectin by Insulin..... 18
Douglas L. Fraker, MD, and Jeffrey A. Norton, MD, FACS

Enhanced Release of Interleukin-1-like Activity by Hepatocyte:Macrophage Cocultures 21
John E. Mazuski, MD, Michael A. West, MD, Howard C. Towle, PhD, Richard L. Simmons, MD, FACS, and Frank B. Cerra, MD, FACS

Does Wounded Tissue Regulate Hepatic Glucose Production? 23
Jean Marie Daley, MD, Jeffry D. Shearer, MA, Jorge Albina, MD, and Michael D. Caldwell, MD, PhD

Stimulation of Pyruvate Dehydrogenase Activity Increases Pyruvate Oxidation and Decreases Lactate Production in Severely Burned Patients 26
Hiroshi Miyoshi, MD, Farook Jahoor, PhD, David N. Herndon, MD, Manu Desai, MD, and Robert R. Wolfe, PhD

Glucagon: An Important Stimulator of Gut and Hepatic Glutamine Metabolism..... 27
Richard J. Geer, MD, Phillip E. Williams, BS, Terry Lairmore, BS, and Naji N. Abumrad, MD, FACS

Effects of Antimicrobials on Wound Healing..... 30
Stephen D. Hershey, MD, Charles E. Lucas, MD, FACS,
Anna M. Ledgerwood, MD, FACS, and Ralph Cushing, MD

Wound Healing with Vitamin A in Chronically
Steroid-Treated Rats..... 31
Byung-Ho Yu, MD, John P. Hoffman, MD, FACS,
John C. Dreixler, MS, Amanda M. VanDenburgh, MS,
Firouz Daneshgari, MD, Charles F. Lange, PhD,
Philip B. Dobrin, MD, PhD, FACS, and H. Kurt Jacobs, PhD

Thymic Hormones Inhibit Wound Healing 34
Adrian Barbul, MD, FACS, John Knud-Hansen, MD,
Hannah L. Wasserkrug, BA,
and Gershon Efron, MD, FRCS, FACS

Interleukin-2 During Starvation and Nutritional Repletion..... 36
John E. Kehoe, MD, Mary Anne Bonilla, MD,
Karl Welte, MD, and John M. Daly, MD, FACS

Does Cachectin Cause Cachexia?..... 38
Hamish R. Michie, FRCS(E), David R. Spriggs, MD,
Jan Rounds, BS, and Douglas W. Wilmore, MD, FACS

Redistribution of Amino Acids in Rat Liver and Muscle Induced
by Tumor Necrosis Factor Requires the Adrenal Response..... 41
H. Fletcher Starnes, Jr., MD, Robert S. Warren, MD,
Peter S. Conti, MD, PhD, Steven E. Calvano, PhD,
and Murray F. Brennan, MD, FACS

Reduction of the Severity of Enterocolitis by
Glutamine-Supplemented Enteral Diets..... 43
Andrew D. Fox, MD, Scott A. Kripke, MD,
Jeffrey R. Berman, BA, R. Gregg Settle, PhD,
and John L. Rombeau, MD, FACS

Disparate Effects of 5-Fluorouracil on the Ileum and Colon of Enterally Fed Rats With Protection by Dietary Glutamine 45
Danny O. Jacobs, MD, D. Andrew Evans, FRCS(E), Sarah T. O'Dwyer, FRCS(E), Robert J. Smith, MD, and Douglas W. Wilmore, MD, FACS

Stimulation of Mucosal Growth with Intracolonic Butyrate Infusion 47
Scott A. Kripke, MD, Andrew D. Fox, MD, Jeffrey M. Berman, BA, R. Gregg Settle, PhD, and John L. Rombeau, MD, FACS

Effect of Insulin on Tumor and Host Uptake of Glucose and Amino Acids 50
Kenneth A. Kern, MD, and Jeffrey A. Norton, MD, FACS

Failure of BCAA Supplementation to Promote Nitrogen Retention in Injured Patients 52
Roger E. Morgan, MD, Roxie M. Albrecht, MD, Alan T. Davis, PhD, Donald J. Scholten, MD, and Richard E. Dean, MD, FACS

Acute Effects of Growth Hormone on Protein Metabolism During Intravenous Refeeding 54
Yuman Fong, MD, Michael Rosenbaum, MD, G. Raman, MD, PhD, David G. Hesse, MD, Kevin J. Tracey, MD, Dwight E. Matthews, PhD, Joseph Gertner, MD, Donald A. Fischman, MD, and Stephen F. Lowry, MD, FACS

Na_e/K_e Ratio Is a Better Index of Nutritional Status Than Standard Anthropometric and Biochemical Indices 56
Jose M. Tellado-Rodriguez, MD, Jose L. Garcia-Sabrido, MD, FACS, Harry M. Shizgal, MD, FRCS(C), FACS, and Nicolas V. Christou, MD, PhD, FRCS(C), FACS

Chapter II—Critical Care, Infections, and Burns

Nuclear Magnetic Resonance Spectroscopy and Tissue Analysis of Skeletal Muscle During Hemorrhagic Shock 59
Jeffrey S. Moore, MD, Ronald T. Bogusky, MD, George C. Kramer, PhD, and James W. Holcroft, MD, FACS

A Monoclonal Antibody That Blocks Neutrophil Adherence Improves Survival from Hemorrhagic Shock in Rabbits 62
Nicholas B. Vedder, MD, Robert K. Winn, PhD, Karl-E. Arfors, PhD, John M. Harlan, MD, and Charles L. Rice, MD, FACS

Prolonged Susceptibility to Infection Exists After Hemorrhagic Shock Despite Resuscitation and Antibiotics 64
David H. Livingston, MD, and Mark A. Malangoni, MD, FACS

Clinical Assessment of Postoperative Peripheral Perfusion 66
J. Arthur Jensen, MD, Kay Riggs, MD, Luis O. Vasconez, MD, FACS, William H. Goodson III, MD, FACS, John Rabkin, MD, and Thomas K. Hunt, MD, FACS

Effects of Volume Expansion During Normal and Protein-Depleted Conditions on Systemic Transvascular Fluid Transport and Edema Formation 68
Bruce A. Harms, MD, Daniel G. Radosevich, BS, and James R. Starling, MD, FACS

Head Injury and Fluid Resuscitation of Hemorrhagic Shock: Differences in Blood-Brain Barrier and Cerebral Edema After Normal Saline, 3% Saline, and Dextran-40 71
William Gunnar, MD, Olga Jonasson, MD, FACS, Gary Merlotti, MD, James Stone, MD, FACS, and John Barrett, MD, FACS

Hemorrhagic Shock Impairs the Mucosal Barrier, Resulting in Bacterial Translocation from the Gut and Sepsis 73
John W. Baker, MD, Edwin A. Deitch, MD, FACS, Rodney Berg, PhD, and Li Ma, MD

Intestinal Handling Facilitates Enteric Bacterial Translocation 75
Gabriela Guzman-Stein, MD, Margaret Bonsack, MS, James Liberty, John P. Delaney, MD, PhD, and Carol W. Wells, PhD

Effects of Muscle Relaxants, Sedatives, Narcotics, and Anesthetics on Neonatal Thermogenesis 76
Jeffrey Stein, MD, Henry Cheu, MD, Myung Lee, MD, Bakr Nour, MD, and Marc I. Rowe, MD, FACS

Does Parathormone Stimulate Gastrin Secretion? A Study of Hormonal Interrelationships 79
Niall J. Buckley, MB, BSc, FRCS(I), Bruce Lobaugh, PhD, Mark D. Christy, AB, and George S. Leight, MD, FACS

Combined High-Frequency Ventilation in Refractory Traumatic and Septic Adult Respiratory Distress Syndrome 82
Ulf R. Borg, BS, Joan C. Stoklosa, BS, John H. Siegel, MD, FACS, Avraham Rivkind, MD, Stephen Blevins, BS, Howard Belzberg, MD, and Kathleen Cotter, RN

Right Atrial Dynamics During Positive-Pressure Ventilation and Volume Expansion 85
Eric J. DeMaria, MD, Drew E. Carlson, PhD, Kenneth W. Burchard, MD, FACS, and Donald S. Gann, MD, FACS

Prevention of Intra-abdominal Abscesses with Tissue Plasminogen Activator 87
Ori D. Rotstein, MD, FRCS(C), and Jonathan Kao, BSc

Proximal Gastrointestinal Flora and Systemic Infection in the Critically Ill Surgical Patient 89
John C. Marshall, MD, FRCS(C), Nicolas V. Christou, MD, PhD, FRCS(C), FACS, Mary de Santis, RN, and Jonathan L. Meakins, MD, DSc, FRCS(C), FACS

Endotoxin Causes Increased Sensitivity of Lymphocytes to Inhibitory Effects of Prostaglandin E_2 91
John T. Grbic, DMD, MS, Mary L. Rodrick, PhD, David B. Gough, MB, FRCS(I), Nuala M. Moss, MB, FRCS(I), Arthur Revhaug, MD, James Manson, MB, FRCS, Hamish R. Michie, MB, FRCS, Sara T. O'Dwyer, MB, FRCS, Douglas W. Wilmore, MD, FACS, and John A. Mannick, MD, FACS

Endotoxin Impairs Neutrophil Function in Burn Patients 94
Kevin T. Moran, MD, FRCS(I), FRCS(Ed), Thomas J. O'Reilly, MD, BSc, FRCS(I), Jagan Thupari, MD, G. Xiao, MD, Richard Winchurch, PhD, Diane Karadsheh, BS, Maria D. Allo, MD, FACS, and Andrew M. Munster, MD, FACS

Functional Immune Consequences Following In Vivo Lipopolysaccharide Administration to Normal Human Subjects Are Secondary to an Alteration of Antigen-Presenting Cells 96
Craig D. Rhyne, MD, Steve E. Calvano, PhD, Richard P. Richardson, MD, David G. Hesse, MD, Stephen F. Lowry, MD, FACS, Kevin J. Tracey, MD, Yuman Fong, MD, and Anthony C. Antonacci, MD, FACS

Endotoxin In Vivo May Cause a Functional Blockade of In Vitro Cellular Immune Responses 98
Mary L. Rodrick, PhD, John T. Grbic, DMD, Nuala M. Moss, MB, FRCS(I), David B. Gough, MB, FRCS(I), Arthur Revhaug, MD, James Manson, MB, FRCS, Sara T. O'Dwyer, MB, FRCS, Hamish R. Michie, MB, FRCS, Douglas W. Wilmore, MD, FACS, and John A. Mannick, MD, FACS

Etiology of Neutrophil Chemotaxis Dysfunction During Endotoxin-Induced Lung Injury 100
John A. Griswold, MD, and Ronald V. Maier, MD, FACS

Endotoxin Infusion in Human Volunteers: Assessment of the Early Cellular Membrane Response 102
Joseph P. Minei, MD, Gary A. Fantini, MD, David G. Hesse, MD, Shigeru Shiono, MD, Kevin J. Tracey, MD, Yuman Fong, MD, Stephen F. Lowry, MD, FACS, and G. Tom Shires, MD, FACS

Evidence for Xanthine Oxidase- and H_2O_2-Dependent Generation of Serum C5a in Thermally Injured Rats 104
Keith T. Oldham, MD, Karen S. Guice, MD, Gerd O. Till, MD, and Peter A. Ward, MD

Use of a New Assay for Detecting Antibody to *Staphylococcus aureus* in Severely Injured Patients 106
Michael J. Hershman, FRCS, Sarah H. Appel, BS, Christopher D. George, FRCS, John W. Hesse, Karen M. Cost, PhD, and Hiram C. Polk, Jr., MD, FACS

Human Neutrophil Chemotaxis to and Generation of Leukotriene B_4 After Burn Injury 109
Roderick E. Duhaney, BA, John D. Meyer, MD, Diane Felsen, PhD, E. Darracott Vaughan, Jr., MD, FACS, Roger W. Yurt, MD, FACS, and John Mihran Davis, MD, FACS

Beneficial Effects of Staphage Lysate in the Treatment of Chronic Recurrent Hidradenitis Suppurativa 111
Michael F. Angel, MD, Sai S. Ramasastry, MD, Ernest K. Manders, MD, David Ganfield, PhD, and J. William Futrell, MD, FACS

Chapter III—Gastrointestinal Tract, Liver, Pancreas, Biliary Tract, and Associated Hormones

Carbonic Anhydrase Inhibitors Block Secretin-Stimulated But Not Basal Gastric HCO_3^- Secretion in Canines 113
Merril T. Dayton, MD, FACS, and Donna J. Riley, BS

Physiologic Significance of Cholecystokinin in Mammalian Pepsinogen Secretion 116
Marc D. Basson, MD, Thomas E. Adrian, PhD, MRCPath, and Irvin M. Modlin, MD, FACS

Tissue Fusion of the Rat Stomach with the CO_2 Laser 118
Daniel T. Dempsey, MD, Donna Showers, BA, Philip Valente, MD, Richard Sterling, BA, and John V. White, MD

Inhibition of Stimulated Gastric Acid Output by Blockade of Gastrin Receptors 121
Michael W. Mulholland, MD, and Haile T. Debas, MD, FACS

Prosthetic Gastric Sling Reinforcement: A New Method for the Treatment of Gastroesophageal Reflux Disease 122
Octavio P. Vaz, MD, FACS, C. Thomas Bombeck, MD, FACS, John W. DeSalvo, BS, and L. M. Nyhus, MD, FACS

Cholinergic Control of Entero-Oxyntin 124
Barry W. Feig, MD, Raymond J. Joehl, MD, FACS, and David L. Nahrwold, MD, FACS

C-Kinase-Mediated Acid Secretion in Gastric Glands 127
Jonathan Sack, MD

Etiology of the Acid-Induced Increase in Lower Esophageal Sphincter Pressure 129
Anthony D. Sandler, MD, Jerry F. Schlegel, BS, James W. Maher, MD, FACS, Andrew J. Olinde, MD, and James E. McGuigan, MD

Osmocaloric Regulation of Gastric Emptying After Duodenojejunostomy: Interplay with the Gastric Fundus 131
Kamal M.F. Itani, MD, R. Edward Coleman, MD, and Onye E. Akwari, MD, FRCS(C), FACS

Morphologic Evidence for Direct and Adaptive Cytoprotection in the Dog Stomach 135
Brant E. Victor, MD, Gregory S. Smith, BS, Karmen L. Schmidt, PhD, and Thomas A. Miller, MD, FACS

Opposing Effects of $GABA_A$ and $GABA_B$ Agonists on Gastric Acid Secretion 137
Robert P. Winter, MD, and Richard C. Thirlby, MD

Improvement of Pancreas Transplant Survival by Donor or Graft Pretreatment with Cyclosporin A and Donor Pretreatment with Concanavallin A 139
Yogin Parikh, MD, Luis H. Toledo-Pereyra, MD, PhD, Israel Finkelstein, MD, Karl Bandlien, MD, Vijay Mittal, MD, and Joseph Cortez, MD, FACS

New Potent Cholecystokinin Antagonists Block Cerulein-Induced Pancreatitis 142
Karl A. Zucker, MD, Thomas E. Adrian, MRCPath, Jeffrey E. Sussman, MD, and Irvin M. Modlin, MD

Mechanisms of Pancreatic Capillary Endothelial Injury in Acute Pancreatitis 144
Karen S. Guice, MD, Keith T. Oldham, MD, Kent J. Johnson, MD, and Peter A. Ward, MD

Intraperitoneal Absorption of Insulin: Comparison of Three Different Sites 146
M. Hani Soliman, MD, Khanh H. Nguyen, MD, Tammy Pham, Matthew Ward, and Kenneth Waxman, MD, FACS

Reversal of Abnormal Glucose Production in Chronic Pancreatitis by Administration of Gastric Inhibitory Polypeptide and Pancreatic Polypeptide 149
Yasuhiro Tanaka, MD, Paul Druck, MD, F. Charles Brunicardi, MD, Ronald E. Chance, PhD, Ronald L. Gingerich, PhD, Dariush Elahi, PhD, and Dana K. Andersen, MD, FACS

Suppression of Hepatic Glucose Output by Insulin in Pancreatic Autotransplantation 151
David A. Krusch, MD, John D. Barr, MD, R. Scott Jones, MD, FACS, and John B. Hanks, MD, FACS

Radionuclide Evaluation of the Reversibility of Occlusive and Nonocclusive Intestinal Ischemia..... 154
Constantine T. Frantzides, MD, PhD, Anastasia Stavraka, MD, Petros Mirianthephs, MD, Costas Kakavakis, MD, and Robert E. Condon, MD, MS, FACS

Effect of Mesenteric Detachment on Suture Line Blood Flow and the Diameter of the Healed Anastomosis..... 157
David N. Armstrong, MB, BCh, FRCS(E), David C. Hitch, MD, FACS, and Raphael S. Chung, MD, FACS

Jejunoileal Autotransplantation: Effects on Small Intestinal Motility..... 160
Michael G. Sarr, MD, Masao Tanaka, MD, and Judith A. Duenes, BA

Secretory Effect of Substance P on Isolated Vascularly Perfused Rabbit Ileum 162
Neville F. Couse, FRCS(I), Charles J. Yeo, MD, Christos Antiohos, MD, and Michael J. Zinner, MD, FACS

Effect of Hemorrhagic Shock on Intestinal Motility in the Opossum 165
James E. Foster II, MD, and Frank G. Moody, MD, FACS

Inhibition of Gallbladder Absorption Prevents Cholesterol Gallstone Formation 167
Seth D. Strichartz, MD, Mohammed Z. Abedin, PhD, M. Samy Abdou, MD, and Joel J. Roslyn, MD, FACS

Effect of Ethanol and Its Metabolites on Collagen Content and Fibroplasia In Vitro 169
Wei-Chin Sung, MD, Deborah Bernstein, BA, Stanley M. Levenson, MD, FACS, and Achilles A. Demetriou, MD, PhD, FACS

Structural Requirements for the Binding of Gastrin to Mouse Colon Cancer Cells 171
Pomila Singh, PhD, Shima Kumar, MD, Courtney M. Townsend, Jr., MD, FACS, and James C. Thompson, MD, FACS

Verapamil Influences Gallbladder Transmucosal Calcium Flux 174
Keith D. Lillemoe, MD, Thomas H. Webb, MD, Luyi Li, MD, and Henry A. Pitt, MD, FACS

Effects of Dietary Fat on Regional Myoelectric Activity of the Opossum Sphincter of Oddi 176
Jose E. Parodi, MD, and James M. Becker, MD, FACS

Corticosteroids Up-Regulate Gastrin Receptors and Stimulate Growth of Mouse Colon Cancer (MC-26) In Vivo 178
Zahida Samad, MD, Courtney M. Townsend, Jr., MD, FACS, James C. Thompson, MD, FACS, and Pomila Singh, PhD

Role of Inflammatory Cells in Enhanced Rabbit Gallbladder Prostaglandin Biosynthesis 180
Stuart I. Myers, MD, David Thomasson, PhD, Bernard B. Davis, MD, Cindee Rettke, BS, and Lori Parks, BS

Hepatocellular Membrane Function and Hepatic Blood Flow Are Altered During Live *E. coli* Bacteremia 182
Shigeru Shiono, MD, Gary A. Fantini, MD, Joseph P. Minei, MD, Jerry Chiao, MD, G. Tom Shires III, MD, and G. Tom Shires, MD, FACS

Segmental Heterogeneity in Bile Acid–Induced Permeability in Colon Cancer 185
Debra A. Goller, MD, Wibo F. Weidema, MD, and Richard J. Davies, MD

Gallbladder Dysfunction Following Choledochoduodenostomy 188
Bruce D. Schirmer, MD, Norman A.G. Brenbridge, MD, Michael A. Bresticker, MD, Mark E. Shaffrey, MD, Randolph Cook, BS, and R. Scott Jones, MD, FACS

Effects of Nicotine on Canine Colonic Mucosal Blood Flow Measured Endoscopically Using Hydrogen Gas Clearance 190
David Soybel, MD, Stanley Ashley, MD, Yuan-Lian Wan, MD, and Laurence Cheung, MD, FACS

Intravenous Amino Acids Induce Human Gallbladder Contraction 192
William H. Nealon, MD, James R. Upp, Jr., MD, Robert W. Alexander, MD, and James C. Thompson, MD, FACS

Chapter IV—Cardiac Surgery

Detrimental Effects of Sodium Nitroprusside on Spinal Cord Motor Tract Perfusion During Thoracic Aortic Cross-Clamping 195
John C. Laschinger, MD, Jeffrey Owen, PhD, Michael Rosenbloom, MD, James L. Cox, MD, FACS, and Nicholas T. Kouchoukos, MD, FACS

Spinal Cord Protection During Ischemia: Comparison of Mannitol, Thiopental, and Free Radical Scavengers 197
Edward B. Gerhardt, MD, James R. Stewart, MD, John G. Morrison, MD, Walter H. Merrill, MD, FACS, John W. Hammon, Jr., MD, FACS, and Harvey W. Bender, Jr., MD, FACS

Increased Susceptibility of Fibrillating Hearts to Irreversible Ischemia: A Comparison of Adult Versus Neonatal Hearts 199
Walter Vicenti, MD, Karina Bukhanov, Lloyd Semelhago, Tomas A. Salerno, MD, FRCS(C), FACS, and Carin Wittnich, DVM, MSc (Expert Surg)

Depressed Oxygen Consumption and Blood Flow in the Hypertrophied Subendocardium During Rapid Atrial Pacing 202
Peter M. Scholz, MD, Joel Joselevitz-Goldman, MD, Harvey R. Weiss, PhD, and James W. Mackenzie, MD, FACS

Effects of Chronic Supraventricular Tachycardia on Myocardial Energy Compound Production and Utilization 205
Thomas D. Christopher, MD, Hiroshi Takei, MD, Mark R. Bladergroen, MD, Robin G. Cummings, MD, D. James Schumacher, MD, and James E. Lowe, MD

Thermal Angiography—A New Method of Assessing Coronary Circulation During CABG Surgery....208
Friedrich W. Mohr, MD, Warren Grundfest, MD, Frank Litvack, MD, David Glick, MD, A. Jakubowski, MD, Carlos Blanche, MD, Aurelio Chaux, MD, Robert Kass, MD, Myles Lee, MD, Po Tsai, MD, Leon Morgenstern, MD, James Forrester, MD, and Jack Matloff, MD

Topical Cardiac Hypothermia and Phrenic Injury: An Experimental Study....211
Robert J. Robison, MD, Annemarie DeSanto, MD, Yousuf Mahomed, MD, Stacey Wesemann, and John W. Brown, MD

Rapid Replacement of the Canine Aortic Arch With a Branched Intraluminal Prosthesis Using Inflow Occlusion....212
Stephen M. Estner, MD, Cary Passik, MD, and Richard Brodman, MD, FACS

Internal Manipulation of the Canine Mammary Artery Impairs Endothelium-Dependent Vasodilation....215
Roger A. Johns, MD, Alan M. Johnson, MD, Axel W. Joob, MD, Michael J. Peach, PhD, Elizabeth Griffin, BS, Terry Flanagan, MPH, and Irving L. Kron, MD, FACS

Natural Anticoagulants in Postoperative Chest Drainage....217
Victor Schmelzer, MD, Carol A. Gervin, PhD, FACA, Charlene L. Phythian, BS, Glenn R. Barnhart, MD, and Richard R. Lower, MD, FACS

Effects of Iloprost on Human Platelet and Neutrophil Function.....219
Russell F. Stahl, MD, Carol A. Fisher, BA, and V. Paul Addonizio, MD

Effect of Hypothermia on Enzymatic Activity of Thrombin and Plasmin 221
Matt M. Kurrek, MD, and R. Lawrence Reed II, MD

Atrial Trauma During Venous Cannulation or Pneumonectomy Decreases Atrial Fibrillation Threshold.....223
Evelyn J. Torres, MD, Patrick M. McCarthy, MD, Hartzell V. Schaff, MD, FACS, Victor F. Trastek, MD, and Peter C. Pairolero, MD, FACS

Sensitivity of Neonatal Hearts to Ischemia: Confusion From Failure to Control the Bathing Media During Ischemia.....226
Michael E. Jessen, MD, FRCS(C), Anwar S. Abd-Elfattah, PhD, Jon Lekven, MD, Louis A. Brunsting, MD, Neil E. Doherty, MD, and Andrew S. Wechsler, MD, FACS

Energy Expenditure of the Autoperfused Heart-Lung Preparation.....228
Jay H. Ross, MD, Fernando Riveron, MD, Gregory Casey, MD, Diana L. Twyman, MS, and Donald J. Magilligan, Jr., MD, FACS

High-Pressure Reperfusion Injury in Neonatal Hearts 231
Tadashi Fujiwara, MD, Terry A. Kurtts, BS, William D. Anderson, BS, and John E. Mayer, Jr., MD

Evidence for Reduced Left Ventricular Chamber and Intrinsic Myocardial Compliance in a Canine Model of Chronic Cyanosis 234
Thomas P. Barragry, MD, James W. Blatchford III, MD, and W. Steves Ring, MD, FACS

Cardioplegic Arrest Versus Profoundly Hypothermic Total Circulatory Arrest in the Neonate 236
James W. Blatchford III, MD, Thomas P. Barragry, MD, Theodore J. Lillehei, MD, Ishik C. Tuna, MD, and W. Steves Ring, MD, FACS

Linear Stroke Work Area Versus End-Diastolic Area Relationship: A Sensitive Index of Intrinsic Regional Contractility 239
Irvin B. Krukenkamp, MD, Norman A. Silverman, MD, FACS, Richard W. Illes, MD, and Sidney Levitsky, MD, FACS

Preload Dependence of Myocardial Blood Flow in Hypertrophied and Postischemic Canine Right Ventricles 241
Louis A. Brunsting, MD, Cornelius M. Dyke, AB, David R. Salter, MD, FRCS(C), Charles E. Murphy, MD, Anwar S. Abd-Elfattah, PhD, and Andrew S. Wechsler, MD, FACS

Renal Sympathetic Nerve Activity and Systemic Vascular Resistance in Dogs During Cardiopulmonary Bypass 243
Kathryn Dirkes, BME, Douglas O. Nelson, PhD, Robert W. Anderson, MD, FACS, and Leslie R. McGregor, BS

Hyperoxic Cardiac Dysfunction in Primates 246
Philip J. Fracica, MD, Mark J. Knapp, MD, Ahmed Jafri, MD, R. Edward Coleman, MD, James D. Crapo, MD, and Walter G. Wolfe, MD, FACS

Aging Alters Myocardial Response During Resuscitation in Burn Shock.....249
Jureta W. Horton, PhD, D. Jean White, MS, and Charles R. Baxter, MD, FACS

Induction of Ventricular Atriopeptin Synthesis in Aortocaval Fistula.....251
Paul T. Stockmann, MD, and Philip Needleman, PhD

Effects of Antegrade Cardioplegia With Simultaneously Controlled Coronary Sinus Occlusion on Preservation of Regionally Ischemic Myocardium After Acute Coronary Artery Occlusion and Reperfusion.....254
Shu-Ching Sun, MD, Stanley K.C. Tam, MD, Susan M. Hill, MD, Syed T. Raza, MD, FACS, Rita G. Laurence, BS, Richard J. Shemin, MD, FACS, and Lawrence H. Cohn, MD, FACS

Improved Distribution of Cardioplegia With Pressure-Controlled Intermittent Coronary Sinus Occlusion.....256
Harold L. Lazar, MD, and Samuel Rivers, BS

Clinical Comparison of Retrograde Versus Aortic Root Cardioplegia: Effect of Right Heart Intracavitary Cooling on the Incidence of Postoperative Atrial Arrhythmias.....258
Marc B. Bloom, MD, James T. Diehl, MD, Eric J. Eichhorn, MD, Douglas D. Payne, MD, FACS, Arthur R. Dresdale, MD, Robert M. Bojar, MD, Deeb N. Salem, MD, Marvin A. Konstam, MD, and Richard J. Cleveland, MD, FACS

Preischemic Energy Enhancement in Hypertrophied Myocardium With Perfluorocarbon Cardioplegia.....260
Mark S. Soberman, MD, James D. Sink, MD, Gerard C. Forest, PA, and Charles R. Hatcher, Jr., MD, FACS

A Critical Red Cell Volume Is Necessary in Oxygenated Cardioplegic Vehicles 263
Richard W. Illes, MD, Norman A. Silverman, MD, FACS, Irvin B. Krukenkamp, MD, and Sidney Levitsky, MD, FACS

Purine-Enriched Asanguine Cardioplegia Provides Superior Myocardial Protection 265
David A. Wyatt, MD, Stephen W. Ely, MD, PhD, Robert D. Lasley, BS, and Robert M. Mentzer, MD, FACS

Superoxide Dismutase Plus Catalase Enhances Recovery of Isolated Rat Hearts After Two Hours of Global Ischemia and Reperfusion 267
Syed T. Raza, MD, FACS, Stanley K.C. Tam, MD, Shu-Ching Sun, MD, Peter Bloom, BS, Rita G. Laurence, BS, and Lawrence H. Cohn, MD, FACS

Myocardial Salvage by Trifluoperazine, a Calcium-Calmodulin Antagonist 270
John A. Rousou, MD, FACS, Richard M. Engelman, MD, FACS, Robert H. Breyer, MD, FACS, Hajime Otani, MD, PhD, Ronald Clement, MD, Renuka Prasad, PhD, and Dipak Das, PhD

Ibuprofen Inhibits Neutrophil Accumulation But Does Not Prevent Myocardial Reperfusion Injury in Coronary Revascularization After Acute Myocardial Infarction 273
Ronald Clement, MD, Richard M. Engelman, MD, FACS, John A. Rousou, MD, FACS, Robert H. Breyer, MD, FACS, Hajime Otani, MD, PhD, Mohamed Antor, MD, Shlomo Hoory, PhD, Dibyendu Bandyopadyay, MD, and Dipak Das, PhD

Release of Neutrophil Chemotactic Factors
From Ischemic Myocardial Tissues.....276
Salwa A. Elgebaly, PhD, Robert A. Kozol, MD,
Paolo Masetti, MD, Mary Bohr, BS,
and Carol Lennon, BS

Unique Mechanical Properties of Regional
Cardioplegic Arrest in the Beating Heart.....279
Michael G. Moront, MD, Ali R. Analouei, PhD,
Moshe Mehlman, Cordus Easington, Gary L. Schaer, MD,
and Marc S. Visner, MD

AV Conduction Delay and Hypermagnesemia.....282
David W. Molter, BSE, William C. Buhrman, MD,
Mark Tedder, BS, R. Duane Davis, MD,
Gregory P. Fontana, MD, and James E. Lowe, MD

Chapter V—Cardiopulmonary Research

Free Radical Study During Heart
Preservation and Transplantation.....284
Ko Bando, MD, Mamoru Tago, MD, Shingo Seno, MD,
Taiji Murakami, MD, Sugato Nawa, MD, Yoshimasa Senoo, MD,
and Shigeru Teramoto, MD

Accelerated Atherosclerosis in Cardiac
Allografts: Effect of Platelet Inhibitors and the
Relationship to Urinary Thromboxane Excretion.....288
Alan Muskett, MD, Nelson A. Burton, MD, FACS,
E. J. Eichwald, MD, Jane Shelby, Margo Hendrickson, MD,
and John J. Sullivan, PhD

Sensitivity of Scintigraphy With
^{111}Indium-Labeled Lymphocytes for Noninvasive
Detection of Cardiac Allograft Rejection 290
Michael Rosenbloom, MD, Howard J. Eisen, MD,
Steven B. Eisenberg, MD, John C. Laschinger, MD,
Jeffrey E. Saffitz, MD, PhD, Steven R. Bergmann, MD, PhD,
Burton E. Sobel, MD, James L. Cox, MD, FACS,
and R. Morton Bolman III, MD

Atrial Natriuretic Peptide in Calves With
a Total Artificial Heart 292
James A. Magovern, MD, Walter E. Pae, Jr., MD,
Timothy E. Oaks, MD, John A. Waldhausen, MD, FACS,
and William S. Pierce, MD, FACS

Improvement of Left Ventricular Compliance
Utilizing a Right Ventricular Assist Device
in Sepsis-Induced Acute Respiratory Distress Syndrome 294
Bruce Toporoff, MD, Corrado Marini, MD,
Philip E. Grubbs, Jr., MD, Anthony J. Acinapura, MD, FACS,
Eddie L. Hoover, MD, FACS, Daniel M. Rose, MD, FACS,
and Joseph N. Cunningham, Jr., MD, FACS

Acute Electrophysiologic Effects of
Amiodarone in Totally Denervated Hearts..... 297
William C. Buhrman, MD, David W. Molter, BSE,
Mark Tedder, BS, R. Duane Davis, MD,
Robin G. Cummings, MD, and James E. Lowe, MD

Assessment of Ciliary Function in
the Tracheobronchial Tree of the Heart-Lung
Transplant Recipient..... 300
Mary C. Mancini, MD, Bartley P. Griffith, MD, FACS,
and W. Newton Tauxe, MD

Improved Lung Preservation Without
Pulmonary Artery Flushing.....301
Timothy S. Hall, MD, Norman D. LaFrance, MD,
William A. Baumgartner, MD, FACS, A. Michael Borkon, MD,
George J. Kontos, MD, Jeffery Brawn,
Grover M. Hutchins, MD, and Bruce A. Reitz, MD, FACS

Inhalation Injury Increases Systemic
Microvascular Permeability.....303
Karin E. Montero, MD, Hans J. Lubbesmeyer, MD,
Daniel L. Traber, PhD, Ryozo Kimura, MD,
Lillian D. Traber, RN, and David N. Herndon, MD, FACS

Selective Lung Leukosequestration
Following Complement Activation 305
Joseph M. Klausner, MD, Lester M. Kobzik, MD,
C. Robert Valeri, MD, David Shepro, PhD,
and Herbert B. Hechtman, MD, FACS

Efficacy of Unilateral High-Frequency Jet
Ventilation Versus Conventional Positive-Pressure
Ventilation in the Nondependent Lung During Thoracotomy 307
Lewis Wetstein, MD, FACS, Mitsuru Nakatsuka, MD,
James V. O'Connor, MD, Amy Brenner, RN,
John Francisco, BA, Joseph Sargent, CRNA,
and Richard L. Kennan, MD

Accentuation of Ventilation-Perfusion
Inequality in Acid Aspiration-Induced Acute
Lung Injury 309
Philip S. Barie, MD, Wenxi Wu, MD,
Paul H. Halebian, MD, and G. Tom Shires, MD, FACS

Chapter VI—Vascular Problems

Production and Treatment of Mechanically Induced Arterial Vasospasm in a Rabbit Model 313
James J. Walsh, MD, Joseph P. Meyer, MD, FRCS, FACS, Mark S. Rosenbloom, MD, Carl W. Peterson, PharmD, and D. Preston Flanigan, MD, FACS

Interaction of Human Endothelium and Vascular Smooth Muscle In Vitro 315
Richard P. Cambria, MD, Deborah Weibe, MS, and William M. Abbott, MD

Reperfusion With Superoxide Dismutase Improves Cellular Membrane Function in Postischemic Skeletal Muscle 317
Gary A. Fantini, MD, Joseph P. Minei, MD, Malcolm O. Perry, MD, FACS, Shigeru Shiono, MD, and G. Tom Shires, MD, FACS

Endothelium-Derived Relaxing Factor Production Is Absent in Vein Grafts 319
K. Simon Cross, MB, MMedSci, FRCS(I), FRCS(Ed), Mostafa N. El-Sanadiki, MB, MS, John J. Murray, MD, PhD, Eileen M. Mikat, PhD, Richard L. McCann, MD, and Per-Otto Hagen, PhD

Activity and Transport of Antithrombin During Acute Limb Ischemia 321
Paul E. Burke, FRCS(I), Colum F. Harvey, FRCS (Ed), Charlene L. Phythian, BS, Carol A. Gervin, PhD, FACA, and Lazar J. Greenfield, MD, FACS

Effects of Polypropylene's Mechanical Properties on Histologic and Functional Reactions to Polyglactin 910/Polypropylene Vascular Prostheses 323
Howard P. Greisler, MD, FACS

Laser Thrombectomy and Arterial Prosthetic Graft Recanalization 326
Joseph D. Labs, MD, Robert I. White, MD, James H. Anderson, PhD, Bruce A. Perler, MD, and G. Melville Williams, MD, FACS

Comparative Study of Microvascular Anastomoses Using CO_2 Laser and Conventional Suture Technique 328
Samir Basu, MD, Israel J. Jacobowitz, MD, FACS, Su Wang, MS, Sheryl Brustein, MD, Daniel M. Rose, MD, Anthony J. Acinapura, MD, and Joseph N. Cunningham, Jr., MD, FACS

Surface Thrombogenicity After Excimer Laser and Hot-Tip Thermal Ablation of Plaque: Morphometric Studies Using an Anular Perfusion Chamber 330
Louis G. Prevosti, MD, Jeffry B. Lawrence, MD, Martin B. Leon, MD, Paul D. Smith, PhD, David Y. Lu, MD, Wendy S. Kramer, BS, and Richard E. Clark, MD, FACS

Transcranial Doppler Monitoring During Carotid Arterial Surgery 333
Peter A. Schneider, MD, Mary E. Rossman, RVT, Shirley M. Otis, MD, Shlomo Torem, MD, Ralph B. Dilley, MD, FACS, and Eugene F. Bernstein, MD, PhD, FACS

Effects of Hemodynamics and Deendothelialization
on the Intramural Metabolism of Low-Density Lipoprotein
in Canine Carotid Artery 335
Si M. Pham, MD, Samuel J. Durham, MD,
William J. Calvo, BS, Scott A. Berceli, BS,
ViJay S. Warty, PhD, and Harvey S. Borovetz, PhD

Does Fasciotomy Prevent Necrosis After
Revascularization for Acute Arterial Occlusion?..... 337
Alan M. Graham, MD, FRCS(C), Raphael Corbisiero, MD,
Benoit de Varennes, MD, Richard Baffour, MSc,
and James F. Symes, MD, FRCS(C), FACS

Chapter VII—Transplantation and Associated Immunology

MHC Class II Induction in Allografts:
RNA Analysis..... 339
Dilip S. Kittur, MD, S. H. Huang, MD,
G. Hill, MD, A. W. French, ANSc, and W. Adler, MD

Activation Markers in Cardiac Allografts
in Rats Treated by Different Immunosuppressive
Modalities..... 341
Rozanne H.H. Lord, FRCS, Winfried Padberg, MD,
Wayne W. Hancock, MD, PhD,
Jerzy W. Kupiec-Weglinski, MD, PhD,
and Nicholas L. Tilney, MD, FRCS, FACS

Therapeutic Efficacy of Anti-Interleukin-2 Receptor Monoclonal Antibodies in Experimental Organ Transplantation 344
Rossella Di Stefano, MD, Jerzy W. Kupiec-Weglinski, MD, PhD, John Puskas, MD, Klaus Stünkel, PhD, Rudi Grützmann, PhD, Tibor Diamantstein, PhD, and Nicholas L. Tilney, MD, FRCS, FACS

Allospecific Delayed Hypersensitivity Reactions to Both Strong and Weak Alloantigens Can Be Evoked by Pure Cloned Helper T Cells 347
Ginny L. Bumgardner, MD, David R. Cahill, BS, Richard L. Simmons, MD, FACS, and Nancy L. Ascher, MD, PhD, FACS

Recombinant Products of Macrophage Activation Can Attract Circulating Lymphocytes In Vivo 350
Richard J. Migliori, MD, Scott A. Gruber, MD, Rosemary A. Hoffman, BS, Nancy L. Ascher, MD, PhD, FACS, and Richard L. Simmons, MD, FACS

Alloimmune Interactions Between Lymphocytes and Pancreatic Islets in Culture 352
Peter G. Stock, MD, David E.R. Sutherland, MD, PhD, FACS, Jeffrey Platt, MD, Sally Chen, BS, Jane Field, BS, Dixon B. Kaufman, MD, and Nancy L. Ascher, MD, PhD, FACS

Increased Cytotoxic T Lymphocyte Killing of Isolated Pancreatic Islet Cells After Interferon Treatment 354
James F. Markmann, BA, Jill Jacobson, MD, Allan Roza, MD, Ira J. Fox, MD, Phoebe Strome, MS, and Ali Naji, MD, PhD, FACS

Purification of Dendritic Cells From
Rat Bone Marrow 357
Michael A. Choti, MD, James F. Markmann, BA,
and Ali Naji, MD, PhD, FACS

Migration Patterns of Dendritic
Cells in the Mouse 359
Jerzy W. Kupiec-Weglinski, MD, PhD,
Jonathan M. Austyn, PhD,
and Peter J. Morris, MB, BS, PhD, FRCS, FACS

Nonhuman Primate Responses to Murine
Monoclonal Antibody Therapy Detected
by ELISA Assay 362
Francis L. Delmonico, MD, FACS, Thomas C. Fuller, PhD,
and A. Benedict Cosimi, MD

Subcutaneous Administration of Donor
Lymphocytes and ^{99m}Tc-MAA to Achieve
Specific Immunosuppression 364
Paolo Pepino, MD, Rashid Fawwaz, MD, PhD,
John Chabot, MD, Soji Oluwole, MD, FRCS(C), FACS,
Keith Reemtsma, MD, FACS, and Mark A. Hardy, MD, FACS

Unique Cyclosporin Pharmacokinetic
Characteristics of the Rat 366
Ralph Didlake, MD, Eung K. Kim, MD,
and Barry D. Kahan, MD, PhD, FACS

Primary Nonfunction of Pancreatic
Islet Allografts Is an Immune Phenomenon
Prevented by Host Immunosuppression With Cyclosporin 368
Dixon B. Kaufman, MD, Fran Rabe, BS, Peter G. Stock, MD,
Paul Gores, MD, Jeffrey Platt, MD,
and David E.R. Sutherland, MD, PhD, FACS

Use of Oxygen Free Radical Scavengers
to Increase the Yields of Isolated Rat Islets
After Pancreatic Warm Ischemia 371
Peter Fonseca, MD, PhD, and David W. Scharp, MD, FACS

Isolated Islet Cells Are More Vulnerable
to Recurrent Diabetes Than Vascularized
Pancreas Grafts..... 373
Allan Roza, MD, James Markmann, BA,
Kenneth Brayman, MD, Ira J. Fox, MD,
Ali Naji, MD, PhD, FACS, Leonard J. Perloff, MD, FACS,
William F. Hickey, MD, and Clyde F. Barker, MD, FACS

Prolonged Survival of Rat Pancreas Allografts
by Ex Vivo Perfusion With Monoclonal Antibodies Specific
for Class II MHC Antigens..... 375
David M. Lloyd, MBBS, FRCS, A. Osama Gaber, MD,
Marguerite Buckingham, BA, Frank P. Stuart, MD,
and J. Richard Thistlethwaite, Jr., MD, PhD

Early Diagnosis of Pancreas Allograft
Rejection 378
Robert J. Stratta, MD, Scott B. Perlman, MD,
Hans W. Sollinger, MD, PhD, FACS,
Munci Kalayoglu, MD, FACS, and
Folkert O. Belzer, MD, FACS

Survival of Rat Hepatic Allografts After
Treatment With Donor Splenocytes 380
Yasuo Yamaguchi, MD, PhD,
and R. Randal Bollinger, MD, PhD, FACS

Differential Diagnosis of Renal Transplant
Dysfunction by Two-Color Flow Cytometric Analysis
of Fine-Needle Aspiration Biopsies..... 383
Ulrike Gross, MD, Paul R. Cunningham, MD,
Francis T. Thomas, MD, and Judith M. Thomas, PhD

Transplantation of Cryopreserved
Microcarrier-Attached Human Hepatocytes
into Gunn Rats 385
Albert D. Moscioni, PhD, Lillian B. Nanney, PhD,
Laurel Brown, BS, Ron Barbour, MD,
and Achilles A. Demetriou, MD, PhD, FACS

Effects of a Platelet-Activating Factor
Antagonist on Postischemic Hepatic Function
in the Rat..... 388
Sheryl J. Ontell, MD, Leonard Makowka, MD, PhD,
Peter Ove, PhD, and Thomas E. Starzl, MD, PhD, FACS

Differences in Bronchoalveolar and Peripheral
Blood Cell Subsets During Lung Allotransplant
Rejection and Pneumonia..... 390
Hani Shennib, MD, MSc, FRCS(C),
Ron D. Guttmann, MD, FRCP(C), FACP,
Ray C.-J. Chiu, MD, PhD, FRCS(C), FACS,
David S. Mulder, MD, FRCS(C), FACP,
Ron Mangel, MD, FRCP(C), FACP,
and James Wilson, MD, FRCS(C), FACS

Dysanapsis of Alveolar and Airway
Growth in Reimplanted Lobes of Growing Pigs 392
Eugene D. McGahren, MD, W. Gerald Teague, MD,
Alan M. Johnson, MD, Terry Flanagan, MPh,
Axel W. Joob, MD, Bradley M. Rodgers, MD, FACS,
and Irving L. Kron, MD, FACS

A Fish Oil Vehicle Increases the Therapeutic
Index of Cyclosporin 394
Robert L. Kirkman, MD, FACS, Leslie V. Barrett,
Terry B. Strom, MD, and Vicki E. Kelley, PhD

Chapter VIII—Oncology and Associated Immunology

Glucocorticoid Receptor Mediates Rat Sarcoma Growth 396
James Peacock, MD, Louisa Laue, MD,
George Chrousos, MD, William Gallucci, BS,
and Jeffrey A. Norton, MD, FACS

Expression of Epidermal Growth Factor Receptor and
Mutant *ras* p21 Correlates With Metastatic Behavior in
Human Colorectal Cancer 398
Thanjavur S. Ravikumar, MD, FRCS(Ed), FRCS(Can),
Barbara Wolf, MD, Lan Bo Chen, PhD,
Ronald R. Salem, FRCS, Celia Cocchiaro, BS,
Karen Litt, BS, and Glenn Steele, Jr., MD, PhD, FACS

Increased Levels of *ras* Oncogene Protein Product in Carcinogen-
Induced Rat Colorectal Adenocarcinomas 400
Fabrizio Michelassi, MD, Mark Dieterich, MS,
Anthony G. Montag, MD, David G. Bostwick, MD,
Steven K. Clinton, MD, PhD, William J. Visek, PhD,
and George E. Block, MD, FACS

Restriction Fragment Length Polymorphisms of Type I Collagen as
Genetic Markers for Breast Cancer 402
Anne-Marie Marcoux, MD, John A. Mcfadden, MD,
James W. Mackenzie, MD, FACS, Charles D. Boyd, PhD,
Susan B. Deak, PhD, and Ralph S. Greco, MD, FACS

Effects of Specific Monoclonal Antibody Treatment on Intraperitoneal Colon Cancer Xenografts Prior to Radioimmune Localization 405
Rosemary B. Duda, MD, Jeffrey Y.C. Wong, MD, Raymond J. Paxton, PhD, Lawrence E. Williams, PhD, Barbara G. Beatty, PhD, John E. Shively, PhD, and J. David Beatty, MD

Production and Evaluation of a Monoclonal Antibody to Non-CEA-Producing Colorectal Cancers 408
Ronald R. Salem, FRCS(Ed), Ronald Bleday, MD, George W. Daneker, MD, Barbara Wolf, MD, Peter Thomas, PhD, Norman Zamcheck, MD, Henry F. Sears, MD, FACS, Lan Bo Chen, PhD, and Glenn Steele, Jr., MD, PhD, FACS

Chemosensitization by Cyclosporin A: Conflicting Results In Vitro and In Vivo 410
David Berger, MD, Christopher Hager, MD, and Monica Morrow, MD, FACS

Cachectin: A Mediator of Cancer Cachexia? 413
Mark C. Stovroff, MD, and Jeffrey A. Norton, MD, FACS

Arginine as an Immunomodulator 415
John V. Reynolds, MB, FRCS(I), Suzhan M. Zhang, MD, Arleen K. Thom, MD, Moritz M. Ziegler, MD, FACS Ali Naji, MD, PhD, FACS, and John M. Daly, MD, FACS

Parenteral Nutrition and Neurotransmitter Metabolism in Tumor-Bearing Rats 418
William T. Chance, PhD, Lequn Cao, MD, Jeffrey L. Nelson, PhD, Teri Foley-Nelson, MS and Josef E. Fischer, MD, FACS

Tumor Polyamine Levels Predict Therapeutic Response to α-Difluoromethylornithine in Human Colon Cancers in Nude Mice 421
James R. Upp, Jr., MD, Courtney M. Townsend, Jr., MD, FACS, and James C. Thompson, MD, FACS

Effects of Cholestasis on Liver Carcinogenesis 423
Susan H. Westfall, MD, Lynne E. Webb, BA, Robert H. Connors, MD, and Thomas R. Weber, MD, FACS

Augmentation of Anti-HIV ADCC With Interleukin-2 425
H. Kim Lyerly, MD, Thomas J. Matthews, PhD, Paul M. Aherne, BSE, Alphonse J. Langlois, PhD, Dani P. Bolognesi, PhD, and Kent J. Weinhold, PhD

Interleukin-2 Leads to Lung Lymphosequestration, Thromboxane Generation, and Rapid Increase in Permeability 428
Joseph M. Klausner, MD, Deric D. Schoof, PhD, Lester M. Kobzik, MD, Nicole Morel, PhD, Diane Highum, MD, C. Robert Valeri, MD, Timothy J. Eberlein, MD, David Shepro, PhD, and Herbert B. Hechtman, MD, FACS

Ia+ Cell Participation in Specific Adoptive Immunotherapy 431
Barbara A. Ward, MD, Donna Perry-Lalley, MS, Suyu Shu, PhD, and Alfred E. Chang, MD, FACS

Tumor-Specific Lysis by Long-Term Cultured Tumor-Infiltrating Lymphocytes 434
Suzanne L. Topalian, MD, and Steven A. Rosenberg, MD, PhD, FACS

Tumor Cell Susceptibility to Lysis: Marked Increase in Lysis by Tumor-Infiltrating Lymphocytes Following Target Stimulation With Interferon-γ and Tumor Necrosis Factor-α—Implications for Immunotherapy....436
Eric A. Wiebke, MD, Michael T. Lotze, MD, FACS, and Steven A. Rosenberg, MD, PhD, FACS

Role of Regional Lymph Nodes in the Development of Tumor Immunity....438
Keith R. Stephenson, MD, Donna Perry-Lalley, MS, Suyu Shu, PhD, and Alfred E. Chang, MD, FACS

Local Hyperthermia and Irradiation of Primary Melanomas: Effects on Regional Lymph Node and Systemic Metastases....441
S. David Nathanson, MD, FRCS, FACS, Fred W. Hetzel, PhD, and Renee Bobrowski, BS

Site of Metastasis Influences Monoclonal Antibody Uptake by Human Melanoma Xenografts in Nude Mice....443
David R. McCready, MD, FRCS(C), James L. Murray, MD, Charles M. Balch, MD, FACS, and Isaiah J. Fidler, DVM, PhD

Expression of *ras* Oncogene p21 in Esophageal Squamous Cell Carcinoma....445
Alberto Ruol, MD, Janet K. Stephens, MD, PhD, Alfonso Maiorana, MD, Mark B. Lubienski, MD, Fabrizio Michelassi, MD, Mark K. Ferguson, MD, David B. Skinner, MD, FACS, and Alex G. Little, MD, FACS

Chemoimmunotherapy of Large Established Murine Fibrosarcomas....447
Kazuyo Naito, MD, PhD, Scott Smith, BS, and Barry D. Kahan, MD, PhD, FACS

Bombesin Stimulates Growth of Human Small Cell Lung Carcinoma In Vivo 450
Robert W. Alexander, MD, James R. Upp, Jr., MD, Graeme J. Poston, FRCS, Vicram Gupta, MD, Courtney M. Townsend, Jr., MD, FACS, and James C. Thompson, MD, FACS

In Vitro Photodynamic Therapy of Human Lung Cancer: Influence of Dose Rate, Hematoporphyrin Concentration and Incubation Time, and Cellular Targets 452
Walter E. Rizzoni, MD, Wilbert Matthews, BS, James Mitchell, PhD, and Harvey I. Pass, MD, FACS

Chapter IX—Gynecology and Obstetrics

Value of Clinical Factors in Predicting Acute Appendicitis in Young Women: A Logistic Regression Analysis 456
Aksel G. Nordestgaard, MD, John A. Butler, MD, Carol J. Marcus, MD, PhD, Samuel E. Wilson, MD, FACS, and Russell A. Williams, MD, FACS

Gynecologic Surgery in the Aged 458
Carolyn V. Kirschner, MD, John H. Isaacs, MD, Ines M. Baquero, MD, Therese M. DeSerto, BS, and Roberta L. Karlman, MD

Three Years' Experience With LUNA in the Outpatient Surgical Treatment of Dysmenorrhea 460
Edward M. Lichten, MD, FACS

Uterine, Cervical, and Bladder Contractility Recorded In Vivo and Their Responses to Hypogastric and Pelvic Nerve Stimulation 462
Satoshi Sato, MD, Robert H. Hayashi, MD, and Robert E. Garfield, PhD

Sex Hormonal Changes After Massive Loss of Excess Weight.....465
Toan B. To, MD, Mervyn Deitel, MD, FRCS(C), FACS, Elaine Stone, MD, FRCP(C), Donald J.A. Sutherland MD, FRCP(C), and Edward Wilk, MD, FACOG, FRCS(C)

Whole-Body Irradiation Improves Growth and Histology of Human Tumor Grafts in the Mouse Subrenal Capsule Assay 468
Walter H. Gajewski, MD, Howard J. Fingert, MD, Arlan F. Fuller, Jr., MD, and Patricia K. Donahoe, MD, FACS

Serum ^{125}Ca Levels Correlated With Survival in Epithelial Ovarian Cancer.....470
Jonathan M. Niloff, MD, FACOG, FRCS(C), Brent Dubeshter, MD, Vincent R. Zurawski, Jr., PhD, Rebecca Gelman, PhD, Myla Hunt, MS, Robert C. Bast, Jr., MD, and Robert C. Knapp, MD, FACOG, FACS

Cholecystectomy Accompanying Major Abdominal Surgery for Gynecologic Cancer 473
Bruce Patsner, MD, FACOG, William J. Mann, Jr., MD, FACOG, FACS, Lonnie W. Frei, MD, FACS, Juan Maderiega, MD, FACS, and Michael Arato, MD

Synergistic Cytotoxicity Between Dimethyl Sulfoxide and Antineoplastics Against Ovarian Cancer In Vitro.....475
Rodney F. Pommier, MD, Eugene A. Woltering, MD, George Milo, PhD, and William S. Fletcher, MD, FACS

Epidural Butorphanol in Postcesarean Patients 477
Shirley Tan, MD, Douglas Brockmann, MD,
and Floyd S. Brauer, MD

Risk of Uterine Rupture With Oxytocin Stimulation in the Grand Multipara.....479
Rick W. Martin, MD, James N. Martin, Jr., MD,
Winfred L. Wiser, MD, and John C. Morrison, MD

Chapter X—Neurological Surgery

Natural History of the Nonoperatively Treated Contralateral Internal Carotid Artery.....482
Bruce Jaufmann, MD, Hilary Kern, BS,
A. John Popp, MD, FACS, and Gary Wood, MD

Cadaveric Dura as a Vascular Patch Graft in the Canine Carotid Artery Model 484
Charles L. Branch, Jr., MD, K. Stuart Lee, MD,
and Joe M. McWhorter, MD

Effect of Age on Arterial Stenosis Following Microsurgical Repair 486
Robert J. Hariri, MD, PhD, Jamshid B.G. Ghajar, MD, PhD,
and Russel H. Patterson, MD, FACS

Role of Vascular Inflammation in the Genesis of Chronic Cerebral Vasospasm 488
Gregory B. Nazar, MD, Neal F. Kassell, MD,
Mark Leeson, MD, and Sarah Hudson, BS

Surgical Management of Aneurysms in the Cavernous Sinus.....491
Fernando G. Diaz, MD, PhD, Sam Ohaegbulam, MD,
Manuel Dujovny, MD, and James I. Ausman, MD, PhD

Transient Focal Cerebral Ischemia in the Rabbit: Improvement of Cortical Blood Flow, Intracellular pH, and Electrocorticographic Findings With Nimodipine 494
Philip W. Tally, MD, Thoralf M. Sundt, Jr., MD,
Robert E. Anderson, BS, and Tony L. Yaksh, PhD

Anticholinergic Treatment of Experimental Brain Injury 497
Bruce G. Lyeth, PhD, Harold F. Young, MD,
and Ronald L. Hayes, PhD

Early Operative Fusion Versus Halo Vest Immobilization for Posttraumatic Instability of the Cervical Spine 499
Michael N. Bucci, MD, Robert C. Dauser, MD,
Frederick A. Maynard, MD, and Julian T. Hoff, MD, FACS

Treatment in a Specialized Unit Improves Three Measures of Outcome After Acute Spinal Cord Injury: Statistical Analysis of 552 Cases 501
Eric G. Duncan, BSc, MB ChB, FRCS(Ed),
Charles H. Tator, MD, PhD, FRCS(C), Virginia E. Edmonds, RN,
Lillian I. Lapczak, BSc, and David F. Andrews, PhD

Electrophysiologic Characteristics of the Corticomotor Evoked Potential in the Rat.....503
Richard K. Simpson, Jr., MD, PhD, and David S. Baskin, MD

Reperfusion Spinal Cord Blood Flow and Neurologic Recovery in Experimental Ischemic Spinal Cord Injury 506
Stephen H. Johnson, MD, Joyce M. Kraimer, BS,
and Geoffrey M. Graeber, MD, FACS

Relationship Between Spinal Cord Blood Flow and
Axonal Function in the Motor and Sensory Tracts of the Cord After
Experimental Spinal Cord Injury 508
Michael G. Fehlings, MD,
Charles H. Tator, MD, PhD, FRCS(C), FACS,
R. Dean Linden, PhD, and James E. Loukides, BSc

Adrenal Medulla Transplanted to Caudate Nucleus for
Treatment of Parkinson's Disease: Report of 10 Cases 510
Ignacio Madrazo, MD, DSc, FACS,
Rene Drucker-Colin, MD, PhD,
Victor León, MD, and Cesar Torres, MD

Immunologically Defined Astrocyte Subsets: Implications for
Axonal Regeneration After Central Nervous System Injury 512
Joseph R. Madsen, MD, and William D. Matthew, PhD

Evaluation of Nerve Regeneration Across Nerve Allografts in Rats
Immunosuppressed With Cyclosporin A.....515
James R. Bain, MD, Susan E. Mackinnon, MD, FRCS(C), FACS,
Alan R. Hudson, MB, FRCS(C),
Rudy E. Falk, BSc, MD, FRCS(C), and Daniel A. Hunter, RT

Cerebral Ischemia: A Quantitative In Vitro Model 517
Christopher B. Shields, MD, FACS,
Wei-Qiang Dong, MD, Avital Schurr, PhD,
and Kenneth H. Reid, PhD

Removal of Adherent Bacteria From Shunt Tubing 520
David J. Gower, MD, Verlia C. Gower, MS,
Joe M. McWhorter, MD, and Steven H. Richardson, PhD

CHAPTER XI—Ophthalmology

Corneal Argon Laser Photocoagulation for the Treatment of Stromal Neovascularization....523
John C. Baer, MD, and Verinder S. Nirankari, MD, FACS

Vitrectomy in Ocular Toxocariasis....526
Kent W. Small, MD, John M. Williams, Sr., MD, Brooks McCuen II, MD, Eugene de Juan III, MD, and Robert Machemer, MD

Anchored Autogenous Composite Dermis-Fat Graft for Orbital Sulcus Deformity After Exenteration Without Eyelid Removal....529
Alan M. Mindlin, MD, FACS

Chapter XII—Orthopaedic Surgery

Repair of Trephine Defects in the Aged by Implants of Bone Matrix and Marrow....531
Shawn Palmer, MD, Basil S. Strates, MD, PhD, and John F. Connolly, MD, FACS

Significance of Individual Characteristics for the Loading Capacity of Pertrochanteric and Subtrochanteric Osteotomies: An Experimental Study....534
Wilhelm Friedl, MD, and Wolfgang Ruf, MD

Infections After Fracture Stabilization in Contaminated Wounds 536
Brian O. Stephens, BSc(Hons), MB BCh,
Scott R. Grewe, MD, Carl Perlino, MD,
and Richard S. Riggins, MD, FACS

Laser Use in Revision Arthroplasty 538
Charles E. Kollmer, MD, Henry H. Sherk, MD,
and Mark Dugan, MD

Relationship of Prostaglandin E_2 to Pathologic New Bone Formation in a Burn Model.....540
Sherwin S.W. Ho, MD, Peter J. Stern, MD,
J. Wesley Alexander, MD, ScD, FACS, Lawrence P. Bruno, MD,
John D. Wyrick, MD, and J. Paul Waymack, MD

Skeletal Effects of Hypocalcitoninemia in a Rat Model of Selective Calcitonin Deficiency 542
Arthur J. Ross III, MD, John G. Haddad, MD,
Michael D. Fallon, MD, Anthony S. Jennings, MD,
Christian P. Luessenhop, MD,
and James A. O'Neill, Jr., MD, FACS

Polypropylene Braid-Assisted Achilles Tendon Repair in a Sheep Model 544
Nancy C. Cullen, MD, James H. Roth, MD, FRCS(C), FACS,
James H. Ferguson, MD, ChB, FRCS(C),
and Colin Anderson, MD, FRCP(C)

Flexor Tendon Injuries in Zone I: Treatment With New Technical Modification and Results 546
Robert J. Snyder, MD, MAJ, MC,
and Jose J. Monsivais, MD, LTC, MC

Persistence of Vascular Spasm During Reperfusion in Skeletal Muscle Following Three Hours of Total Ischemia.....553
Joseph P. Cullen, BA, Anthony V. Seaber,
and James R. Urbaniak, MD

Monitoring of Early Wallerian Degeneration in Rat Sciatic Nerve Using High-Field Proton NMR Spectroscopy.....555
Laurel O. Sillerud, PhD, Claudia F. Kirsch, BA, Ralph P. Pennino, MD, Gary Miller, MD, James P. Cappon, MD, Mario Kornfeld, MD, Wolff Kirsch, MD, FACS, and George Omer, MD, FACS

Effects of Thromboxane Inhibition on the Complications of Tourniquet Ischemia.....558
Sandra E. Glasson, MD, Anthony V. Seaber, and William E. Garrett, Jr., MD, PhD

Chapter XIII—Otorhinolaryngology

Monitoring Flap Neovascularization by Fiberoptic Fluorometry 561
David A. Brousseau, MD, Steven G. Klein, BA, Karen J. Norton, BA, and David G. Silverman, MD

Measurement of Tissue Compliance as a Predictor of Flap Survival: An Experimental Study.....563
Rick M. Odland, MD, and James I. Cohen, MD, PhD

Influence of Hyperbaric Oxygen and Irradiation on Vascularity in Skin Flaps: A Controlled Study 565
P. M. Nemiroff, MD, PhD, and A. P. Lungu, MD

Hemilaryngeal Reconstruction Using Axial Island Cheek Flap Supported by a Marlex-Stainless Steel Wire Mesh 568
Thomas G. Winek, MD, Truman M. Sasaki, MD, FACS, and Harvey W. Baker, MD, FACS

Submucous Resection of the Laryngeal Cartilages.....569
Randy Oppenheimer, MD, and Yosef P. Krespi, MD

Analysis of Specific Morbidity Using Pretreatment Cisplatin and 5-FU in Patients With Squamous Carcinoma of the Head and Neck Treated With Surgery and/or Radiation Therapy.....571
Jacquelynne P. Corey, MD, Thomas F. Hogan, MD, and Pushpa R. Jain, MD

Production of Transforming Growth Factor-α in Head and Neck Carcinomas.....574
Mark Petitjean, MD, Cynthia Greaton, PhD, Serge Martinez, MD, Gregory Schultz, PhD, and T. E. Geoghegan, PhD

Progesterone Receptors in Carcinomas of the Upper Aerodigestive Tract and Lung: Biochemistry and Clinical Significance 577
Nicholas J. Berg, MD, H. Bryan Neel III, MD, PhD, Louis H. Weiland, MD, and Thomas C. Spelsberg, PhD

Electrocochleography and Perilymphatic Fistulas: An Experimental Study in the Guinea Pig.....579
Aina J. Gulya, MD, Lloyd S. Boling, EdD, and Marianne P. Mastroianni, MS

Three-Dimensional Computer Reconstruction of a Temporal Bone...581
Ivo P. Janecka, MD, FACS, Akira Takagi, MD, Charles Lutz, MD, and Isamu Sando, MD

Chapter XIV—Plastic Surgery

Further Study of Humoral Immune Response to Injectable Bovine Collagen.....583
Jack C. Fisher, MD, David H. Frank, MD, and A. Nuri Ozkan, PhD

Effectiveness of Prophylactic Mastectomy in the Prevention of Breast Tumors in C_3H Mice.....585
Heidi Nelson, MD, Stephen H. Miller, MD, FACS, David Buck, MS, Robert J. Demuth, MD, FACS, and William S. Fletcher, MD, FACS

Silicone Implants as an Anticarcinogen.....587
David A. Dreyfuss, MD, Siddharth Singh, BA, Kambiz Dowlatshahi, MB, FRCS (Eng), FACS, and Thomas J. Krizek, MD, FACS

Effect of Expansion on Silicone-Induced Capsules 589
Barbara K. Siwy, MD, Richard D. Nadal, MD, Geoffrey C. Fenner, MS, Meredith T. Hull, MD, and James E. Bennett, MD

Effects of Rate of Tissue Expansion on the Creation of New Tissue....591
Warren L. Garner, MD, Thomas H. Bartell, MD, and Thomas A. Mustoe, MD

Enhancement of Tissue Expansion Using DMSO.....593
Marc D. Liang, MD, Gregory O. Dick, MD, and Krishna Narayanan, MD

Biomechanical Aspects of Tissue Expansion in Animal Models.....595
Thomas H. Bartell, MD, and Thomas A. Mustoe, MD

The Dorsal Rat Flap: An Appraisal of the Model 598
Roger K. Khouri, MD, Lee E. Edstrom, MD, FACS, and Michael F. Angel, MD

Rat Skin Flap Necrosis Reduced With Topical Chlorpromazine.....600
Robert Ball, MD, Donald Serafin, MD, FACS, and Bruce Klitzman, PhD

Diagnosis, Three-Dimensional Imaging, and Injection Therapy of Childhood Hemangiomas: A Three-Part Clinical Study.....602
Gerald M. Sloan, MD, John H. Miller, MD, L. Leslie Bolton, MD, William L. Saber, MD, Larry S. Nichter, MD, and John F. Reinisch, MD, FACS

Coralline Hydroxyapatite Versus Autogenous Bone: Comparison of Rate of Resorption in a Maxillofacial Onlay Graft Model.....607
Tad E. Grenga, MD, James E. Zins, MD, and Thomas E. Bauer, MD

Bone Grafting: A Comparative, Prospective Analysis of Graft Morphology, Orientation, and Embryonic Origin.....609
Robert A. Hardesty, MD, and Jeffrey L. Marsh, MD, FACS

Pathogenesis of Ischmemia-Induced Tissue Damage in Latissimus Dorsi Myocutaneous Flaps in Pigs.....612
Steven F. Morris, MD, Cho Y. Pang, PhD, William K. Lindsay, MD, FACS, and Ronald M. Zuker, MD, FACS

Prevention of Microvascular Spasm by Pretreatment With Intravenous Lidocaine.....615
Louis A. Bonaldi, MD

Microvascular Anastomosis Patency With Low-Dose Heparin Therapy: An Experimental Study.....617
Burt M. Greenberg, MD, Mathias Masem, MD, and James W. May, Jr., MD

Fetal Response to Injury and Its Modulation With Transforming Growth Factor-Beta.....622
Thomas M. Krummel, MD, Jeffrey M. Nelson, MD, Robert F. Diegelmann, PhD, Barbara J. Michna, MD, Lazar J. Greenfield, MD, FACS, Arnold M. Salzberg, MD, FACS, and I. Kelman Cohen, MD, FACS

Epidermal Growth Factor Enhances Fetal Epithelialization 623
Joe DeLozier, MD, Lillian B. Nanney, PhD,
Kevin Hagan, MD, and Riley S. Rees, MD, FACS

Fetal Wound Matrix Is Composed of Proteoglycan Rather Than Collagen.....626
R. Lawrence DePalma, AB, Thomas M. Krummel, MD,
Jeffrey M. Nelson, MD, Lucian A. Durham, PhD,
Barbara A. Michna, MD, Robert F. Diegelmann, PhD,
and I. Kelman Cohen, MD, FACS

Effect of Diet on the Dog's Oral Bacterial Flora 628
G. Thomas Gilmore, MD, Jane A. Boertman, BS,
Martin C. Robson, MD, FACS, Linda Walowicz, LVT,
Patty Foltan, LVT, Karen Hrapkiewicz, DVM,
and John P. Heggers, PhD

Interaction of Transferred Tissue and Osteomyelitis in the Rabbit....629
M. Hugh Bailey, MB, FRCS(C), Raymond D. Mossie, MD,
Margaret Yungbluth, MD, and
Victor L. Lewis, Jr., MD, FACS

Comparative Bacterial Clearances of Muscle and Subcutaneous Tissues, With and Without Dead Bone:
A Bone/Soft Tissue Infection Model 632
Mathias Masem, MD, Burt M. Greenberg, MD,
Cary Hoffman, BA, David Hooper, MD,
and James W. May, Jr., MD

Efficacy of Debridement and Primary Closure of Contaminated Wounds: A Comparison of Methods 634
Scott McDonald, MD, Larry S. Nichter, MD,
Gerald M. Sloan, MD, and John F. Reinisch, MD

Hemostasis Parameters and Survival in Burn Patients 636
Toby Meltzer, MD, Teruo Miyakawa, MD,
Patricia A. DePoli, BS, Robert J. Sachs, MS,
Abdelmonem Farag, MD, Eberhard F. Mammen, MD,
John P. Heggers, PhD, and Martin C. Robson, MD, FACS

Chapter XV—Reproductive Biology and Related Endocrinology

Morphologic Effects of Unilateral Cryptorchidism on the Contralateral Descended Testis 639
F. Tansu Salman, MD, E. Stanton Adkins, MD,
and Eric W. Fonkalsrud, MD

Clinical Applications of DNA Flow Cytometry of Testicular Aspirates in Evaluating Male Infertility 642
Wayne J. G. Hellstrom, MD, Arline D. Deitch, PhD,
and Ralph W. deVere White, MD

Altered Testicular Microvascular Bed Function in the Experimental Varicocele 645
Craig D. Zippe, MD, Philip Tomashefsky, PhD,
and Harris M. Nagler, MD, FACS

Atherosclerosis-Induced Corporeal Leakage Impotence 647
Kazem Azadzoi, MD, and Irwin Goldstein, MD, FACS

Hemodynamics of Canine Penile Erection: Direct Measurement of Venous Outflow 649
Yoram Vardi, MD, Haran Padma-Nathan, MD,
and Mike B. Siroky, MD, FACS

Effects of Ionized Calcium on Velocity of Human Sperm.....651
Randal Aaberg, MD, Suresh C. Sikka, PhD,
Mark Sauer, MD, and Jacob Rajfer, MD, FACS

Receptor Subtypes in the Rabbit and Human Urinary Bladder 654
Robert M. Levin, PhD, Michael R. Ruggieri, PhD,
and Alan J. Wein, MD

Functional Evidence for α_2 Receptor Activity in
Guinea Pig Prostate 657
John A. Belis, MD, FACS, and Chara L. Burrell, BS

Effect of Chronic Atropine Administration on Muscarinic Receptor
Density in the Rat.....659
Alan J. Wein, MD, William Lee, PhD,
Michael R. Ruggieri, PhD, and Robert M. Levin, PhD

Anatomic Clarification of Penile Skin Flaps.....661
Denise M. Kenna, MD, Roger K. Khouri, MD,
John A. I. Grossman, MD, and Anthony Caldamone, MD

Chapter XVI—Urology

A New Approach to the Study of Macromolecules as Participants in
Calcium Oxalate Crystallization 664
Reid M. Morse, MD, and Martin I. Resnick, MD, FACS

Pulmonary Hypoplasia and Renal Dysplasia in a Fetal Urinary Tract
Obstruction Model.....666
N. Scott Adzick, MD, Michael R. Harrison, MD, FACS
Li-Ming Hu, MD, Paul Davies, PhD,
Alan W. Flake, MD, and Lynne M. Reid, MD

Gene Expression in Hydronephrosis and Compensatory Renal Growth 669
Gerald P. Hoke, MD, Ihor S. Sawczuk, MD, Ralph E. Buttyan, PhD, and Carl A. Olsson, MD

Effect of Thrombin on the Growth and Metastasis of Experimental Neoplasms in Rats..... 671
Richard K. Babayan, MD, FACS, Anthony V. D'Amico, PhD, and Alan C. Nelson, PhD

Impact of Liposome-Associated and Free Tumor-Derived Soluble Antigen Vaccination in the Dunning Prostate Adenocarcinoma Model 673
Mark V. Jarowenko, MD, Hugh F. English, PhD, Robert M. Curley, BS, and Thomas J. Rohner, Jr., MD, FACS

Stage D1 Prostatic Adenocarcinoma: Significance of Nuclear DNA Ploidy Studied by Flow Cytometry..... 676
Harry Z. Winkler, MD, Leslie M. Rainwater, MD, Robert P. Myers, MD, George M. Farrow, MD, Horst Zincke, MD, and Michael M. Lieber, MD

Viral-Mediated Transfer of Specific Genes into Prostatic Cancer Cells and Benign Prostatic Hyperplastic Cells: Infectivity, Expression, and Partial Transformation..... 680
Paul H. Lee, MD, Michael R. Wollin, MD, Christie Holland, PhD, Joel Greenberger, MD, and Mani Menon, MD

Effect of Interleukin-2 and Lymphokine-Activated Killer Cells on the Development of Bladder Tumors in a Murine Model..... 683
Gerald L. Andriole, MD, and Timothy L. Ratliff, PhD

Changes in Phenotype and Growth Induced by Hexamethylene Bisacetamide and *cis*-Retinoic Acid in Human Urothelial Carcinoma Cells Obtained From Bladder Washings 685
Paul Russo, MD, Joel Sheinfeld, MD, Carlos Cordon-Cardo, MD, William R. Fair, MD, FACS, Paul A. Marks, MD, and Richard A. Rifkind, MD

Growth and Antitumor Activity of Tumor-Involved Draining Lymph Node Cells Versus Tumor-Infiltrating Lymphocytes From Patients With Renal Cell Cancer 688
Arie Belldegrun, MD, Suzanne L. Topalian, MD, Marston Linehan, MD, Cary Robertson, MD, and Steven A. Rosenberg, MD, PhD, FACS

Role of Arachidonic Acid Metabolites in the In Vivo Allograft Response 691
Mark L. Jordan, MD, FRCS(C), Ann Carlson, BSc, Rosemary A. Hoffman, BSc, and Richard L. Simmons, MD, FACS
